## CHECKLIST FOR RADIOACTIVE MATERIAL BY AIR

- 1. Charge code for billing
- 2. Charge code for labor

CHARACTERIZATION (SUBJECT TO ONE OVER ONE REVIEW)         No.         N/A           3. RSR         (1)         (1)           4. Other characterization documentation         (1)         (1)           5. Is the material greater than 70 Bq per gram         (1)         (1)           6. Doses the material conform to any exceptions         (1)         (1)           7. Is it specifically listed Uranium or Thorium         (1)         (1)           8. Is specifically listed Uranium or Thorium         (1)         (1)           9. Material is fissile or fissile excepted         (1)         (1)           10. Meets definition of LSA or SCO         (1)         (1)           11. Is a RCRA waste         (1)         (1)           12. Meets definition of other hazard class         (1)         (1)           13. Radiation and contamination levels conform to PSN         (1)         (1)           14. Full name and address of shipper         (1)         (1)           15. Full name and address of shipper         (1)         (1)           15. Full name and address of receiver that is authorized with license on file         (1)         (1)           16. Number of pages shown         (1)         (1)         (1)           17. Mode of shipment either air cargo or passenger         (1)         (1) <th>Charge code for labor</th> <th></th> <th></th> <th></th>	Charge code for labor			
4. Other characterization documentation 5. Is the material greater than 70 Bq per gram 6. Does the material conform to any exceptions 7. Is it specifically listed Uranium or Thorium 8. Is it special form with certificate 9. Material is fissile or fissile excepted 10. Meets definition of LSA or SCO 11. Is a RCRA waste 12. Meets definition of other hazard class 13. Radiation and contamination levels conform to PSN 14. Full name and address of shipper 15. Full name and address of receiver that is authorized with license on file 16. Number of pages shown 17. Mode of shipment either air cargo or passenger 18. RQ in association with PSN 19. Proper Shipping Name 20. Hazard class and UN number 21. Subsidiary hazard 22. Packing group 23. Residue last contained 24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be writen in association with PSN Be shown in conjunction with PSN) 25. Emergency Response Phone Number 27. Physical and chemical form 28. LSA or SCO 29. Number of packages, type, activity in Bq and Tl. For each package 31. Category of label shown and correct for dose rates (Radioactive I, II, III) 32. Note if the package is an overpack 33. Dimensions provided for Yellow II and III packages 34. Fissile Excepted 35. Package identification marks shown and copy of certificate included 36. A copy of the exemption must accompany the shipment 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	CHARACTERIZATION (SUBJECT TO ONE OVER ONE REVIEW)	Yes	No	N/A
5. Is the material greater than 70 Bq per gram 6. Does the material conform to any exceptions 7. Is it specifically listed Uranium or Thorium 8. Is it specifical form with cartificate 9. Material is fissile or fissile excepted 10. Meets definition of LSA or SCO 11. Is a RCRA waste 12. Meets definition of LSA or SCO 13. Radiation and contamination levels conform to PSN 14. Full name and address of shipper 15. Full name and address of receiver that is authorized with license on file 16. Number of pages shown 17. Mode of shipment either air cargo or passenger 18. RQ in association with PSN 19. Proper Shipping Name 20. Hazard class and UN number 21. Subsidiary hazard 22. Packing group 23. Residue last contained 24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be writen in association with PSN. Be shown in conjunction with PSN) 26. Emergency Response Phone Number 27. Physical and chemical form 28. LSA or SCO 29. Number of packages, type, activity in Bq and TI. For each package 30. Name or symbol for radionuclides 31. Category of label shown and correct for dose rates (Radioactive I, II, III) 32. Note if the package is an overpack 33. Dimensions provided for Yellow II and III packages 34. Fissile Excepted 35. Reckage identification marks shown and copy of certificate included 36. A copy of the exemption must accompany the shipment 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	3. RSR			
6. Does the material conform to any exceptions 7. Is it specifically listed Uranium or Thorium 8. Is it specifically listed Uranium or Thorium 9. Material is fissile or fissile excepted 10. Meets definition of LSA or SCO 11. Is a RCRA waste 12. Meets definition of other hazard class 13. Radiation and contamination levels conform to PSN 14. Full name and address of shipper 15. Full name and address of shipper 15. Full name and address of receiver that is authorized with license on file 16. Number of pages shown 17. Mode of shipment either air cargo or passenger 18. RQ in association with PSN 19. Proper Shipping Name 20. Hazard class and UN number 21. Subsidiary hazard 22. Packing group 23. Residue last contained 24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be written in association with PSN. Be shown in conjunction with PSN) 25. Emergency Response Phone Number 26. Emergency Response Phone Number 27. Physical and chemical form 28. LSA or SCO 29. Number of packages, type, activity in Bq and TI. For each package 30. Name or symbol for radionuclides 31. Category of label shown and corpt of certificate included 35. Package identification marks shown and copy of certificate included 36. A copy of the exemption must accompany the shipment 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	Other characterization documentation			
7. Is it specifically listed Uranium or Thorium 8. Is it special form with certificate 9. Material is fissile or fissile excepted 9. Mets definition of LSA or SCO 11. Is a RCRA waste 12. Meets definition of other hazard class 13. Radiation and contamination levels conform to PSN 9. SHIPPING PAPERS (SUBJECT TO ONE OVER ONE REVIEW) 9. The Full name and address of shipper 14. Full name and address of receiver that is authorized with license on file 15. Full name and address of receiver that is authorized with license on file 16. Number of pages shown 17. Mode of shipment either air cargo or passenger 18. RC in association with PSN 19. Proper Shipping Name 20. Hazard class and UN number 21. Subsidiary hazard 22. Packing group 23. Residue last contained 24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be writen in association with PSN. Be shown in conjunction with PSN) 25. Emergency Response Guide Number 26. Emergency Response Guide Number 27. Physical and chemical form 28. LSA or SCO 29. Number of packages, type, activity in Bq and TI. For each package 30. Name or symbol for radionuclides 31. Category of label shown and correct for dose rates (Radioactive I, II, III) 32. Note if the package is an overpack 33. Dimensions provided for Yellow II and III packages 34. Fissile Excepted 35. Package identification marks shown and copy of certificate included 36. A copy of the exemption must accompany the shipment 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	5. Is the material greater than 70 Bq per gram			
8. Is it special form with certificate 9. Material is fissile or fissile excepted 10. Meets definition of LSA or SCO 11. Is a RCRA waste 12. Meets definition of other hazard class 13. Radiation and contamination levels conform to PSN 14. Full name and address of slipper 15. Full name and address of slipper 16. Full name and address of receiver that is authorized with license on file 16. Number of pages shown 17. Mode of shipment either air cargo or passenger 18. RC in association with PSN 19. Proper Shipping Name 20. Hazard class and UN number 21. Subsidiary hazard 22. Packing group 23. Residue last contained 24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be writen in association with PSN. Be shown in conjunction with PSN) 25. Emergency Response Guide Number 26. Emergency Response Phone Number 27. Physical and chemical form 28. LSA or SCO 29. Number of packages, type, activity in Bq and TI. For each package 30. Name or symbol for radionuclides 31. Category of label shown and correct for dose rates (Radioactive I, II, III) 35. Pinensions provided for Yellow II and III packages 36. A copy of the exemption marks shown and copy of certificate included 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	6. Does the material conform to any exceptions			
9. Material is fissile or fissile excepted 10. Meets definition of LSA or SCO 11. Is a RCRA waste 12. Meets definition of other hazard class 13. Radiation and contamination levels conform to PSN  SHIPPING PAPERS (SUBJECT TO ONE OVER ONE REVIEW) 14. Full name and address of shipper 15. Full name and address of receiver that is authorized with license on file 16. Number of pages shown 17. Mode of shipment either air cargo or passenger 18. RQ in association with PSN 19. Proper Shipping Name 20. Hazard class and UN number 21. Subsidiary hazard 22. Packing group 23. Residue last contained 24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be writen in association with PSN. Be shown in conjunction with PSN) 25. Emergency Response Guide Number 26. Emergency Response Phone Number 27. Physical and chemical form 28. LSA or SCO 29. Number of packages, type, activity in Bq and TI. For each package 30. Name or symbol for radionuclides 31. Category of label shown and correct for dose rates (Radioactive I, II, III) 32. Note if the package is an overpack 33. Dimensions provided for Yellow II and III packages 34. Fissile Excepted 35. Package identification marks shown and copy of certificate included 36. A copy of the exemption must accompany the shipment 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	7. Is it specifically listed Uranium or Thorium			
10. Meets definition of LSA or SCO 11. Is a RCRA waste 12. Meets definition of other hazard class 13. Radiation and contamination levels conform to PSN  SHIPPING PAPERS (SUBJECT TO ONE OVER ONE REVIEW) 14. Full name and address of shipper 15. Full name and address of receiver that is authorized with license on file 16. Number of pages shown 17. Mode of shipment either air cargo or passenger 18. RQ in association with PSN 19. Proper Shipping Name 20. Hazard class and UN number 21. Subsidiary hazard 22. Packing group 23. Residue last contained 24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be written in association with PSN, Be shown in conjunction with PSN) 25. Emergency Response Guide Number 27. Physical and chemical form 28. LSA or SCO 29. Number of packages, type, activity in Bq and TI. For each package 30. Name or symbol for radionuclides 31. Category of label shown and correct for dose rates (Radioactive I, II, III) 32. Note if the package is an overpack 33. Dimensions provided for Yellow II and III packages 34. Fissile Excepted 35. Package identification marks shown and copy of certificate included 36. A copy of the exemption must accompany the shipment 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	8. Is it special form with certificate			
11. Is a RCRA waste  12. Meets definition of other hazard class  13. Radiation and contamination levels conform to PSN  SHIPPING PAPERS (SUBJECTTO ONE OVER ONE REVIEW)  14. Full name and address of shipper  15. Full name and address of receiver that is authorized with license on file  16. Number of pages shown  17. Mode of shipment either air cargo or passenger  18. RQ in association with PSN  19. Proper Shipping Name  20. Hazard class and UN number  21. Subsidiary hazard  22. Packing group  23. Residue last contained  24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be writen in association with PSN, Be shown in conjunction with PSN)  25. Emergency Response Guide Number  26. Emergency Response Phone Number  27. Physical and chemical form  28. LSA or SCO  29. Number of packages, type, activity in Bq and TI. For each package  30. Name or symbol for radionuclides  31. Category of label shown and correct for dose rates (Radioactive I, II, III)  32. Note if the package is an overpack  33. Dimensions provided for Yellow II and III packages  34. Fissile Excepted  35. Package identification marks shown and copy of certificate included  36. A copy of the exemption must accompany the shipment  37. Emergency contact number listed and guide number provided  38. TID/seal number listed	Material is fissile or fissile excepted			
12. Meets definition of other hazard class  13. Radiation and contamination levels conform to PSN  SHIPPING PAPERS (SUBJECT TO ONE OVER ONE REVIEW)  14. Full name and address of shipper 15. Full name and address of receiver that is authorized with license on file 16. Number of pages shown 17. Mode of shipment either air cargo or passenger 18. RQ in association with PSN 19. Proper Shipping Name 20. Hazard class and UN number 21. Subsidiary hazard 22. Packing group 23. Residue last contained 24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be writen in association with PSN. Be shown in conjunction with PSN) 26. Emergency Response Guide Number 27. Physical and chemical form 28. LSA or SCO 29. Number of packages, type, activity in Bq and Tl. For each package 30. Name or symbol for radionuclides 31. Category of label shown and correct for dose rates (Radioactive I, II, III) 32. Note if the package is an overpack 33. Dimensions provided for Yellow II and III packages 34. Fissile Excepted 35. Package identification marks shown and copy of certificate included 36. A copy of the exemption must accompany the shipment 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	10. Meets definition of LSA or SCO

A copy of the exemption must accompany the shipment  37. Emergency contact number listed	15. Full name and address of receiver that is authorized with license on file			
18. RQ in association with PSN  19. Proper Shipping Name  20. Hazard class and UN number  21. Subsidiary hazard  22. Packing group  23. Residue last contained  24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be writen in association with PSN. Be shown in conjunction with PSN)  25. Emergency Response Guide Number  26. Emergency Response Phone Number  27. Physical and chemical form  28. LSA or SCO  29. Number of packages, type, activity in Bq and Tl. For each package  30. Name or symbol for radionuclides  31. Category of label shown and correct for dose rates (Radioactive I, II, III)  32. Note if the package is an overpack  33. Dimensions provided for Yellow II and III packages  34. Fissile Excepted  35. Package identification marks shown and copy of certificate included  36. A copy of the exemption must accompany the shipment  37. Emergency contact number listed and guide number provided  38. TID/seal number listed	16. Number of pages shown			
19. Proper Shipping Name 20. Hazard class and UN number 21. Subsidiary hazard 22. Packing group 23. Residue last contained 24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be writen in association with PSN. Be shown in conjunction with PSN) 25. Emergency Response Guide Number 26. Emergency Response Phone Number 27. Physical and chemical form 28. LSA or SCO 29. Number of packages, type, activity in Bq and Tl. For each package 30. Name or symbol for radionuclides 31. Category of label shown and correct for dose rates (Radioactive I, II, III) 32. Note if the package is an overpack 33. Dimensions provided for Yellow II and III packages 34. Fissile Excepted 35. Package identification marks shown and copy of certificate included 36. A copy of the exemption must accompany the shipment 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	17. Mode of shipment either air cargo or passenger			
20. Hazard class and UN number 21. Subsidiary hazard 22. Packing group 23. Residue last contained 24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be writen in association with PSN. Be shown in conjunction with PSN) 25. Emergency Response Guide Number 26. Emergency Response Phone Number 27. Physical and chemical form 28. LSA or SCO 29. Number of packages, type, activity in Bq and TI. For each package 30. Name or symbol for radionuclides 31. Category of label shown and correct for dose rates (Radioactive I, II, III) 32. Note if the package is an overpack 33. Dimensions provided for Yellow II and III packages 34. Fissile Excepted 35. Package identification marks shown and copy of certificate included 36. A copy of the exemption must accompany the shipment 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	18. RQ in association with PSN			
21. Subsidiary hazard 22. Packing group 23. Residue last contained 24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be writen in association with PSN. Be shown in conjunction with PSN) 25. Emergency Response Guide Number 26. Emergency Response Phone Number 27. Physical and chemical form 28. LSA or SCO 29. Number of packages, type, activity in Bq and Tl. For each package 30. Name or symbol for radionuclides 31. Category of label shown and correct for dose rates (Radioactive I, II, III) 32. Note if the package is an overpack 33. Dimensions provided for Yellow II and III packages 34. Fissile Excepted 35. Package identification marks shown and copy of certificate included 36. A copy of the exemption must accompany the shipment 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	19. Proper Shipping Name			
22. Packing group 23. Residue last contained 24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be writen in association with PSN. Be shown in conjunction with PSN) 25. Emergency Response Guide Number 26. Emergency Response Phone Number 27. Physical and chemical form 28. LSA or SCO 29. Number of packages, type, activity in Bq and Tl. For each package 30. Name or symbol for radionuclides 31. Category of label shown and correct for dose rates (Radioactive I, II, III) 32. Note if the package is an overpack 33. Dimensions provided for Yellow II and III packages 34. Fissile Excepted 35. Package identification marks shown and copy of certificate included 36. A copy of the exemption must accompany the shipment 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	20. Hazard class and UN number			
23. Residue last contained 24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be writen in association with PSN. Be shown in conjunction with PSN) 25. Emergency Response Guide Number 26. Emergency Response Phone Number 27. Physical and chemical form 28. LSA or SCO 29. Number of packages, type, activity in Bq and Tl. For each package 30. Name or symbol for radionuclides 31. Category of label shown and correct for dose rates (Radioactive I, II, III) 32. Note if the package is an overpack 33. Dimensions provided for Yellow II and III packages 34. Fissile Excepted 35. Package identification marks shown and copy of certificate included 36. A copy of the exemption must accompany the shipment 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	21. Subsidiary hazard			
24. Uranium or Thorium specifically listed PSN (Note: the words, "Radioactive Material" must be writen in association with PSN. Be shown in conjunction with PSN)  25. Emergency Response Guide Number  26. Emergency Response Phone Number  27. Physical and chemical form  28. LSA or SCO  29. Number of packages, type, activity in Bq and Tl. For each package  30. Name or symbol for radionuclides  31. Category of label shown and correct for dose rates (Radioactive I, II, III)  32. Note if the package is an overpack  33. Dimensions provided for Yellow II and III packages  34. Fissile Excepted  35. Package identification marks shown and copy of certificate included  36. A copy of the exemption must accompany the shipment  37. Emergency contact number listed and guide number provided  38. TID/seal number listed	22. Packing group			
must be writen in association with PSN. Be shown in conjunction with PSN)  25. Emergency Response Guide Number  26. Emergency Response Phone Number  27. Physical and chemical form  28. LSA or SCO  29. Number of packages, type, activity in Bq and Tl. For each package  30. Name or symbol for radionuclides  31. Category of label shown and correct for dose rates (Radioactive I, II, III)  32. Note if the package is an overpack  33. Dimensions provided for Yellow II and III packages  34. Fissile Excepted  35. Package identification marks shown and copy of certificate included  36. A copy of the exemption must accompany the shipment  37. Emergency contact number listed and guide number provided  38. TID/seal number listed	23. Residue last contained			
26. Emergency Response Phone Number  27. Physical and chemical form  28. LSA or SCO  29. Number of packages, type, activity in Bq and Tl. For each package  30. Name or symbol for radionuclides  31. Category of label shown and correct for dose rates (Radioactive I, II, III)  32. Note if the package is an overpack  33. Dimensions provided for Yellow II and III packages  34. Fissile Excepted  35. Package identification marks shown and copy of certificate included  36. A copy of the exemption must accompany the shipment  37. Emergency contact number listed and guide number provided  38. TID/seal number listed				
27. Physical and chemical form  28. LSA or SCO  29. Number of packages, type, activity in Bq and Tl. For each package  30. Name or symbol for radionuclides  31. Category of label shown and correct for dose rates (Radioactive I, II, III)  32. Note if the package is an overpack  33. Dimensions provided for Yellow II and III packages  34. Fissile Excepted  35. Package identification marks shown and copy of certificate included  36. A copy of the exemption must accompany the shipment  37. Emergency contact number listed and guide number provided  38. TID/seal number listed	25. Emergency Response Guide Number			
28. LSA or SCO 29. Number of packages, type, activity in Bq and TI. For each package 30. Name or symbol for radionuclides 31. Category of label shown and correct for dose rates (Radioactive I, II, III) 32. Note if the package is an overpack 33. Dimensions provided for Yellow II and III packages 34. Fissile Excepted 35. Package identification marks shown and copy of certificate included 36. A copy of the exemption must accompany the shipment 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	26. Emergency Response Phone Number			
29. Number of packages, type, activity in Bq and Tl. For each package  30. Name or symbol for radionuclides  31. Category of label shown and correct for dose rates (Radioactive I, II, III)  32. Note if the package is an overpack  33. Dimensions provided for Yellow II and III packages  34. Fissile Excepted  35. Package identification marks shown and copy of certificate included  36. A copy of the exemption must accompany the shipment  37. Emergency contact number listed and guide number provided  38. TID/seal number listed	27. Physical and chemical form			
30. Name or symbol for radionuclides 31. Category of label shown and correct for dose rates (Radioactive I, II, III) 32. Note if the package is an overpack 33. Dimensions provided for Yellow II and III packages 34. Fissile Excepted 35. Package identification marks shown and copy of certificate included 36. A copy of the exemption must accompany the shipment 37. Emergency contact number listed and guide number provided 38. TID/seal number listed	28. LSA or SCO			
31. Category of label shown and correct for dose rates (Radioactive I, II, III)  32. Note if the package is an overpack  33. Dimensions provided for Yellow II and III packages  34. Fissile Excepted  35. Package identification marks shown and copy of certificate included  36. A copy of the exemption must accompany the shipment  37. Emergency contact number listed and guide number provided  38. TID/seal number listed	29. Number of packages, type, activity in Bq and Tl. For each package			
32. Note if the package is an overpack  33. Dimensions provided for Yellow II and III packages  34. Fissile Excepted  35. Package identification marks shown and copy of certificate included  36. A copy of the exemption must accompany the shipment  37. Emergency contact number listed and guide number provided  38. TID/seal number listed	30. Name or symbol for radionuclides			
33. Dimensions provided for Yellow II and III packages  34. Fissile Excepted  35. Package identification marks shown and copy of certificate included  36. A copy of the exemption must accompany the shipment  37. Emergency contact number listed and guide number provided  38. TID/seal number listed	31. Category of label shown and correct for dose rates (Radioactive I, II, III)			
34. Fissile Excepted  35. Package identification marks shown and copy of certificate included  36. A copy of the exemption must accompany the shipment  37. Emergency contact number listed and guide number provided  38. TID/seal number listed	32. Note if the package is an overpack			
35. Package identification marks shown and copy of certificate included  36. A copy of the exemption must accompany the shipment  37. Emergency contact number listed and guide number provided  38. TID/seal number listed	33. Dimensions provided for Yellow II and III packages			
36. A copy of the exemption must accompany the shipment  37. Emergency contact number listed and guide number provided  38. TID/seal number listed	34. Fissile Excepted			
37. Emergency contact number listed and guide number provided  38. TID/seal number listed	35. Package identification marks shown and copy of certificate included			
38. TID/seal number listed	36. A copy of the exemption must accompany the shipment			
	37. Emergency contact number listed and guide number provided			
39. Radiation survey completed and signed by HPT	38. TID/seal number listed			
	39. Radiation survey completed and signed by HPT

1 over 1:	

CHECKLIST FOR RADIOACTIVE MATERIAL BY AIR				
SHIPPING PAPERS (SUBJECT TO ONE OVER ONE REVIEW)	YES	NO	N/A	
40. Signature of shipper				
41. One over one review completed				
PACKAGING (NOT SUBJECT TO ONE OVER ONE REVIEW)				
42. If the shipment is made under an exemption check the following:				
43. Copy of the exemption on file is current				
44. We are party to exemptions				
45. Is the exemption valid for the product being shipped in the package?				
46. Packaging is correct for the material classification with manufacturer certification				
47. Packaging is in unimpaired condition				
48. Package closed per manufacturer instructions or appropriate procedure				
MARKING & LABELING (NOT SUBJECT TO ONE OVER ONE REVIEW)				
49. Name and address of Shipper and Consignee/Receiver				
50. "RQ" marked in association with PSN.				
51. Proper Shipping Name				
52. ID#				
53. Excepted package statement in or on package or with shipping papers				
54. Primary and subsidiary labels applied near PSN. Two each on package				
55. Tamper seal affixed to package				
56. Orientation arrows (combination packages of liquids)				
57. "Type A" or "Type B" with trefoil marking on package				
58. Max. permissable gross wgt. of container (verify manufacturer's embossed marking)				
59. Gross Weight				
DRIVER & VEHICLE (NOT SUBJECT TO ONE OVER ONE REVIEW)				
60. Carrier Print:				
61. Vehicle number Print:				
62. Vehicle inspection date within 1 year of shipment Print:				
63. Vehicle tires meet tread requirements				
64. Hazardous material certificate of registration current				
65. Latest emergency response guidebook in vehicle				
66. Driver name Print:				
67. CDL with correct endorsements Expiration Date:				
68. DOT medical card Expiration Date:				
69. Load properly braced, shored and secured				
70. Vehicle placarded as required (Yellow-III/HRCQ/LSA Exclusive Use)				
71. All hazardous materials segregated as per Segregation Table				
72. POC and ONC notification made (provide shipping papers & applicable attachment)				
73. Request for DOE headquarters approval for RAM shipments other than limited quantity, sample, sealed source, empty, and laundry shall be submitted to the FH traffic manager or delegate by C.O.B. Tuesday of the week preceding shipment.
